

Sunday 15th				
10:00	15:00	Dr Patrick Palacci (Fra) Dr Stephen Chu (USA)	Surgical workshop	
10:00	15:00	Prof Pär-Olov Östman (Swe) Dr John Bronner (RSA)	Prosthetic workshop	
16:00	17:00	Main programme registration		
Monday 16th				
8:00	8:30		Registration	30 min
8:30	9:00	Graham Blackbeard	Welcome	30 min
9:00	11:00	Dr Dennis Tarnow (USA)	Immediate vs delayed socket management: what we know, what we think we know, and what we don't know	2 hr
11:00	11:30	Dr André Hattingh (UK)	Anatomical references to ultra-wide diameter dental implants	30 min
11:30	12:00		Tea	30 min
12:00	12:30	Dr Joshua Campbell & Dr Steven LoCascio (USA)	The TEAM approach to CT-guided treatment of the complex rehabilitation patient with dual-axis specialty implants	30 min
12:30	12:50	Dr Hermann Kluge (RSA)	Zygan - from oncology to prosthodontic reconstruction	30 min
12:50	13:20	Dr Fabio Mazzocco (Ita)	Soft tissue management: from periodontology to implant dentistry	30 min
13:20	14:20		Lunch	1hr
14:20	15:20	Prof Hugo De Bruyn (Bel)	Dental implantology myths exposed in recent research	1 hr
15:20	15:50	Dr Patrick Palacci (Fra)	Papilla regeneration technique: The key for aesthetic success	30 min
15:50	16:20	Prof Ann Wennerberg (Swe)	Corrosion and particle release in peri-implant tissues	30 min
16:20	16:50	Prof Lambis Petridis (UK)	From osseoseparation to peri-implantitis, and back again	30 min
Tuesday 17th				
8:30	10:30	Dr Stephen Chu (USA)	Prosthodontic strategies for tissue preservation around implants placed into extraction sockets in the aesthetic zone	2 hr
10:30	11:00		Tea	30 min
11:00	11:30	Dr Véronique Christiaens (Bel)	Results from preliminary testing of the novel Inversa implant in dry skulls and cadavers	30 min
11:30	12:00	Dr Chris Butterworth (UK)	Changing paradigms in prosthetic rehabilitation following maxillary & mid-facial malignant disease	30 min
12:00	12:30	Dr Carlos Aparicio (Spa)	Achieving patient specific therapy thorough "The Zygoma Anatomy-Guided Approach" (ZAGA) and specific Implant design. The Zygomatic Success Code (ZSC).	30 min
12:30	13:00	Prof Carlo Ferretti (RSA)	Rehabilitation of oro-dental function for patients with segmental mandibular defects using particulate cortico-cancellous bone grafts and implant supported prostheses	30 min
13:00	14:00		Lunch	1 hr
14:00	16:00	Dr Michael Pikos (USA)	Full arch implant reconstruction - evolution of conventional bone grafting based vs. Immediate reconstruction	2 hr
16:00	16:30	Dr Sigfried Jank (Austria) Dr Selwyn Kabrun (RSA)	Learning curve and evolution of the Southern Implants Deep Conical connection Optimising implant treatment outcomes with interdisciplinary treatment	30 min 30 min
16:30	17:00	Dr Carine Matthys (Bel) Dr Avish Jagathpal (RSA)	Prosthetic protocols, challenges, patient perspectives and maintenance of denture conversion using bars vs mini-implants Cementation in implantology: science and strategies	30 min 30 min
Wednesday 18th				
8:30	9:30	Dr Costa Nicolopoulos, Dr Safa Tahmasebi, Dr Petros Yuvanoglu (UAE)	10 factors for success in full mouth implant rehabilitation	1 hr
9:30	10:00	Dr Antonio Olivo (Ita)	Not only all-on-four: new ideas for advanced Co-Axis use	30 min
10:00	10:30	Dr Robert del Castillo (USA)	A paradigm shift for fixed full-arch, implant-supported restorations	30 min
10:30	11:00	Dr Francesco Amato (Ita)	Overcome the anatomical limitations: the new frontier of implant dentistry	30 min
11:00	11:45	Prof Pär-Olov Östman (Swe) & Dr Harold Baumgarten (USA)	Digital workflows: from surgical planning to final restoration	45 min
11:45	12:15		Q&A session	
12:15	13:00	Graham Blackbeard	Closing address
