Zygomatic & Oncology Implants

Zygomatic Implants are available in lengths:
- 35mm code: ZYG-55-35N
- 37.5mm code: ZYG-55-37.5N
- 40mm code: ZYG-55-40N
- 42.5mm code: ZYG-55-42.5N
- 45mm code: ZYG-55-45N
- 47.5mm code: ZYG-55-47.5N
- 50mm code: ZYG-55-50N
- 52.5mm code: ZYG-55-52.5N
- 55mm code: ZYG-55-55N
- 60mm code: ZYG-55-60N

Oncology Implants are available in lengths:
- 27.5mm code: ONC-55-27.5N
- 32.5mm code: ONC-55-32.5N
- 37.5mm code: ONC-55-37.5N
- 42.5mm code: ONC-55-42.5N
- 47.5mm code: ONC-55-47.5N

New Zygomatic & Oncology Design vs. Previous Generation

The latest generation Zygomatic and Oncology implant has an increased diameter to allow the internal screw thread to not protrude through the back of the implant while still maintaining compatibility with Southern’s Z series range of screws.

Figure 1 represents the new design, and Figure 2 the previous generation design.

Drilling Sequence

Step 1: Pilot Drill to full depth of implant  |  Step 2: Countersink  |  Step 3: Diameter 3.4mm Drill to full depth  |  Step 4: Place Implant

(illustration is for 37.5mm implant)
Zygomatic Instrument Tray (I-ZYG-1)

* Zygomatic “TRY-IN” Implants are suitable for use with both the new and previous generation implants. Please refer to CAT-1039 for cleaning and sterilization procedures.
