After several Implant Courses under the guidance of the General Dental Council of England, Etienne started placing Southern Implants in 1995 in Putney, London. Completed Misch Implant Training with the late Professor Carl Misch at Pittsburgh University, Pennsylvania, USA in 1996. Also completed Surgical Implantology at University Western Cape in 1998. Whilst continuing working in London, the family moved and worked in Enschede, Netherlands in 2012 but returned to Cape Town in 2014 where the family, wife Adrië and three children, still work, school and study in Strand and Stellenbosch. Etienne obtained Mastership in Lasers with the late, much loved Prof. Dr. Norbert Gutknecht at Aachen University, Germany in 2020. The introduction of Lasers in his practice, Paardevlei Smiledental at Paardevlei Specialist Medical Centre in Somerset West, opened a whole new world in treatment modalities and technique in all facets of Dentistry esp. in soft tissue manipulation, bone stimulation and treatment of peri-implantitis in Implantology. Recently joined the International Team for Implantology. Sport is Mountainbiking, Hobby is restoring classic BMW motorcycles and passion is President of Christian Motorcycle Association of Helderberg.
